

FRENCH PRESS UNENTHUSIASTIC ABOUT PEACE LEAGUE COVENANT

Comment On Shape Project Has So Far Assumed Not So Favorable; President Wilson, In His Address, Says Document Is Practical and Human One; Declares "This Is Our Covenant of Friendship."

rejoice, because this is intended as a constitution of peace, not as a league of war.

ITCHING SO BAD COULD NOT SLEEP

From Eczema on Face. Spread on Arms in Blotches. Cuticura Heals.

"Eczema broke out all over my face and spread all over my arms in limered blotches and eruptions that caused a burning sensation. I got so bad that I could not sleep nights for the itching, and my skin was inflamed and sore.

"I saw an advertisement for Cuticura Soap and Ointment, and I bought a cake of Cuticura Soap and a box of Cuticura Ointment and I am healed." (Signed) E. C. Colgrove, Box 171, Greentop, Mo.

interests and their development before they look to the interests and desires of the mandatory nation itself.

"So I think I can say of this document that it is at one and the same time a practical document and a human document. There is a pulse of sympathy in it. There is a compassion of conscience throughout it. It is practical, and yet it is intended to purify, to rectify, to elevate. And I want to say that so far as my observation extends, this is in one sense a belated document. I believe that the conscience of the world has long been prepared to express itself in some such way.

In Friday's edition The Herald printed the first 17 articles of the league of nations covenant, as submitted by President Wilson. The remaining articles follow:

"Article XVIII: The high contracting parties agree that the league shall be entrusted with general supervision of the trade in arms and ammunition with the countries in which control of this traffic is necessary in the common interest.

"Article XIX: To those colonies and territories which, as a consequence of the late war, have ceased to be under the sovereignty of the states which formerly owned them, and which are inhabited by peoples not yet able to stand by themselves under the strenuous conditions of the modern world, there has been applied the principle that the well being and development of such peoples form a sacred trust of civilization and that securities for the permanence of this trust should be embodied in the execution of the league.

"Twelve of Backward Nations. The best method of giving practical effect to this principle is that the tutelage of such peoples should be entrusted to advanced nations who, by reason of their resources, by their experience and geographical position can best undertake the responsibility and that this tutelage should be accepted by them as the mandatory on behalf of the league.

"The character of the mandate must differ according to the state of the development of the people, the geographical situation of the territory, its economic conditions and similar circumstances.

"Certain communities formerly belonging to the Turkish empire have reached a stage of development that their existence as independent nations can be provisionally recognized, subject to the rendering of advice toward development and assistance by a mandatory power until such time as they are able to stand alone. The wishes of these communities must be a principal condition in the selection of the mandatory power.

territory and will also secure equal opportunities for the trade and commerce of other members of the league.

"Article XX: The high contracting parties agree that the league shall be entrusted with general supervision of the trade in arms and ammunition with the countries in which control of this traffic is necessary in the common interest.

"Article XXI: The high contracting parties agree that the league shall be entrusted with general supervision of the trade in arms and ammunition with the countries in which control of this traffic is necessary in the common interest.

"Article XXII: The high contracting parties agree that the league shall be entrusted with general supervision of the trade in arms and ammunition with the countries in which control of this traffic is necessary in the common interest.

"Article XXIII: The high contracting parties agree that the league shall be entrusted with general supervision of the trade in arms and ammunition with the countries in which control of this traffic is necessary in the common interest.

"Article XXIV: The high contracting parties agree that the league shall be entrusted with general supervision of the trade in arms and ammunition with the countries in which control of this traffic is necessary in the common interest.

"Article XXV: The high contracting parties agree that the league shall be entrusted with general supervision of the trade in arms and ammunition with the countries in which control of this traffic is necessary in the common interest.

"Article XXVI: The high contracting parties agree that the league shall be entrusted with general supervision of the trade in arms and ammunition with the countries in which control of this traffic is necessary in the common interest.

"Article XXVII: The high contracting parties agree that the league shall be entrusted with general supervision of the trade in arms and ammunition with the countries in which control of this traffic is necessary in the common interest.

A Strong, Solid Company With Two Wells Now Drilling

The Tulsa Producing and Refining Company with more than seventy-five thousand dollars already invested in drilling equipment—machinery—motor trucks—tools—casings—piping—tanks—rig timber—rig irons, etc., the Tulsa Producing and Refining Company invites subscription to its capital stock of Two Hundred and Fifty Thousand Dollars, at \$1.00 per share.

One Thousand Acres in Comanche County

and adjacent counties have been leased by this company. Rigs are up and drilling begun on two tracts in Comanche County. On one tract of 100 acres on the H. L. Fritz farm about 8 miles north of the town of Comanche we are drilling at about 1050 feet. On the second tract drilling was begun a few days ago. This second lease is of 160 acres on the Montgomery farm, 8 miles south of Comanche and a short distance northwest of the Head-Ludlow-Thomas well now expected to come in any day.

Every Phase of Oil Business Capably Covered

by the officers and directors of this company. Mr. W. A. Thayer of Tulsa, Oklahoma, with 48 years of experience in the oil business, is supervising the drilling on the first well and Mr. Garrett J. Donnelly, the vice president, is supervising the sinking of the second well. Mr. Donnelly has 15 years of active oil experience. Judge L. F. Severson, for years counsel for some of the largest producing companies in the Southwest, is Treasurer and General Counsel. Mr. Bert G. Wood, formerly president of the Balwin Oil & Gas Company and fifteen years practicing in the legal profession, is Secretary. The interest of the stock holders are fully and capably protected not only for the period of drilling but for the period of production that will follow thereafter.

The General Tire

Here's What Some Folks Say About the Line

"I DON'T HAVE ANY GRIEF MAKING ADJUSTMENTS BECAUSE YOUR TIRES ARE RIGHT AND STANDING UP."

"WE HAVE FORTY, THREE QUARTER TON WHITE TRUCKS NOW COMPLETELY EQUIPPED WITH GENERAL TIRES, WHICH DELIVER AN AVERAGE OF 5,000 MILES. CONSIDERING THE WEIGHT OF OUR LOADS, THE CONDITION OF THE ROADS AND STREETS TRAVELED THIS IS REMARKABLE SERVICE—THE MOST REMARKABLE WE HAVE EVER RECEIVED."

"OUR EXPERIENCE WITH THE GENERAL TIRE LEADS US TO THE CONCLUSION THAT IT WILL NOT ONLY COMPARE FAVORABLY WITH ANY TIRE ON THE MARKET BUT WILL BE A SOURCE OF AMAZEMENT TO YOU, AS IT WAS TO US, WHEN IT COMES TO STANDING UP UNDER THE MOST ADVERSE CONDITIONS."

Among tire manufacturers it is generally admitted that any one of them can build a QUALITY TIRE—some do—some do not.

The requisites are

- Proper design of moulds, tread and carcass.
 - A high grade cotton with great tensile strength.
 - A pure gum friction.
 - A well balanced, thoroughly toughened tread compound of as nearly pure rubber as is practical.
 - Experienced workmen and careful inspection.
- These and many other unique features are employed in building the General Tires.

DEALERS—This line, because of its high quality, the universal satisfaction it delivers to the consumer, coupled with a wonderful dealers' proposition will show you a handsome profit. Territory will be taken up quickly. If you are tired of making adjustments and desire to participate in a trouble free and ever increasing business, the latter the result of one satisfied customer boosting the tire to another, communicate with us at once.
